

# MediolaNum 2017:

concilius iuvenum mathematicorum

## Young Numerical Analysts in Milan

12 May 2017

Sala di Rappresentanza

Dipartimento di Matematica

Via Saldini 50, 20133, Milan, Italy

**13:50 Introduction**

**14:00 Franco Dassi (Milano Bicocca)**

*“The 3D version of the Virtual Element Method”*

**14:50 Chiara Facciola (Milano Politecnico)**

*“Discontinuous Galerkin approximation of flows in fractured porous media with Polytopal Meshes”*

**15:40: coffee break**

**16:15 Monica Montardini (Pavia)**

*“Optimal-order isogeometric collocation”*

**17:05 Bruno Giovanni Galuzzi (Milano Statale)**

*“Numerical approximation of the wave equation in seismic inverse problems”*
